SUCCESS IS CREATED

Donald Kernan Jr • Black Consulting Services

Our management consulting services focus on our clients' most critical issues and opportunities: strategy, marketing, organization, operations, digital, technology, transformation, advanced analytics and mergers & acquisitions, across all industries and geographies. We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces.
